*"I used the rust remover and it worked beautifully. It looks like you have another great product on your hands".*

*Jim Langdon*

## OVERVIEW

Curb Appeal™ Rust Stain Remover has been formulated to be effective on a variety of exterior surfaces, while remaining sensitive to materials that may etch or bleach.

## FEATURES & BENEFITS

- Available in a convenient 32oz trigger sprayer with ratchet neck for child safety.
- Formula is water-based, biodegradable, and VOC-free.
- Cleaning intensity can be easily controlled by varying Curb Appeal™ dwell time.

## APPLICATIONS

- Curb Appeal™ is effective on concrete, masonry, siding, stucco, and a variety of exterior surfaces.
- In addition to removing rust, Curb Appeal has also been proven effective on scale and mineral stains.

## DIRECTIONS

Always test a small inconspicuous area before use. Wet the area before treating. Remove standing water. Working in a small area, apply rust remover to stain. After dwelling 1 minute, rinse. If results are not satisfactory, reapply. Repeat until the stain is removed. Do not allow rust remover to dry between applications. Results will be gradual, allowing the treated spot to blend with the surrounding area. To accelerate stain removal, use a stiff plastic-bristled brush to agitate the stain. Longer dwell time may also be helpful on tough stains. After the stain has been completely removed, rinse the area thoroughly.
